# Harsh Jain

Portfolio | hello@jharsh.me| Full-stack SDE (Front-end Heavy) | (+91) 7983600174 | LinkedIn | Github

## EXPERIENCE

**CONTINUE** | Fullstack Developer — India | May 2025 - August 2025

- **Engineered a full-stack support platform** using React, Go, and DynamoDB, leveraging centralized dashboard and slack integrations, **reducing ticket resolution time from 1 day to 2 hours.**
- **Spearheaded an in-house CMS** with React/Next.js, Go, and PostgreSQL **to streamline content management** for the website, **accelerating deployment speed by 75%** for non-technical internal users.
- **Created an AWS-based CDN management tool** using React, AWS S3, and Cloud-front enabling users to manage assets. **Improved release cycles by 20%** allowing a seamless cross-platform asset distribution
- **Implemented human benchmarking platform** with a dashboard and benchmark for cognitive and memory testing using ReactJS and Go , improving biomarker data accuracy and a**ccelerating research cycles for internal team**.
- **Built automated firmware versioning** system using Go and React. Manifest parsing and silent app notifications, achieving **80% faster deployments** for all users and **100% mobile app up-time**.

**DELOITTE** | SDE-1 — India | November 2023 - May 2025

- **Contributed to** AI-Assist (from POC to v2.0), spearheaded front-end for **Jira** and **Azure DevOps** plugins and made a **LLM-agnostic AI-Gateway**. Implemented an **atomic react architecture** enhancing developer efficiency by **20-30%**.
- **Built KPI Dashboard** using Go and Next.js to **visualize 20+ KPIs** . Integrated **8+ applications** achieving **10-12% improvement** in data-driven decision making through comprehensive performance monitoring.
- **Developed NPM package** to standardize development across **13+** react applications. **Reduced code redundancy by 40% and accelerated releases by 20%.**

**88VENTURES** | SDE Intern — India | September 2023 - November 2023

- Scaled Quickads to first **100-200 payed users**. Worked on **AI Image Editor** using **Next.Js 13** & **ChakraUI**.
- Independently developed core features: **Image Processing** (**SVG Editor**), **Whitelabeling**, **Payment Gateways**, **OpenAI/DALL-E**, **i18l** , **Social Media Integrations**.

**DELOITTE** | SDE Intern — India | May 2023 - August 2023

- Led a 3-person team for "Balanced Bite," developing an **AI**-powered healthy recipe PWA with **React.js**. Integrated **Generative AI** (**Langchain**) for innovative features, earning the Best **UI/UX** award for intuitive design.
- Completed Hashedin University's rigorous program, achieving **Top 2 rank** (out of 60) and mastering **React.js** alongside Generative AI concepts.

**PROJECTS + OPEN SOURCE CONTRIBUTIONS** | Maintainer + Contributor — GSSoC | 2023

- Managed the Vibey repository, reviewing and merging pull requests to maintain code quality and standards. Facilitated open source development by creating and reviewing issues.
- ErosNow: A Full-stack MERN YouTube clone with **JWT** authentication and **Firebase** for video uploads.

## ACHIEVEMENTS

Spot Awards  Top Impactor  Most Curios Trainee

## SKILLS

**Languages:** TypeScript , Java , Go , Python , C
**Frameworks:** React.Js , Next.Js , Node.js , Langchain , Springboot , Flask , FastAPI
**Database:** SQL , No-SQL
**Technology:** Git , Linux , GCP , AWS

## EDUCATION

**B.Tech in Computer Science** — Jun 2023
Jaypee University of Information and Technology (8.1 CGPA)
